Foothill College, Student Headcount by Military Service Status and Program of Studies, Summer 2017 to Winter 2018

Introduction

This document provides headcount figures by military status and program of studies for students who enrolled at Foothill College any term between summer 2017 and winter 2018. The purpose of the information presented here is to identify for each program of studies offered at the College the number and percentage of students who served in the military or are dependents of those who served.

Regarding military status, figures are provided for CCCApply military status (self-reported military status in students' latest admission application) and military service financial benefit category (having received funds or credits applicable to tuition or enrollment fees, as shown by student account records).

Headcount figures by program of studies or major are disaggregated by their CIP code (classification of instructional programs used by the US Department of Education) and program level (degrees, certificates, undeclared/undecided).

Results Highlights

- Data in Table 1 show that about 3% (890 of 28,960) of the students who enrolled at Foothill College any term between summer 2017 and winter 2018 reported in their latest admission application that they were in active duty, served in the military, or were dependents of a military service member. This included 454 veterans and 265 dependents of a veteran.
- Specific to military service financial benefits, data in Table 2 show that 163 students had received funds totaling \$74,077. Close to 70% (112 of 163) of these students received funds from the Post 9/GI Bill/Chapter 33 program.

- Appendix A to Appendix D show student headcounts by program level and CIP code. Specific to students who received financial benefits related to their military status, the highest percentage figures by program level include:
 - Associate degree (Appendix A):
 - CIP code 11.0901 (Computer Systems Networking and Telecommunications): 6.7% (3 out of 45)
 - CIP code 45.0799 (Geography): 6.7% (1 out of 15)
 - Credit Certificates (Appendix B):
 - CIP code 51.0904 (Emergency Medical Technology/Technician--EMT Paramedic): 0.5% (1 out of 220)

The data did not show any student who received financial benefits related to their military status at the baccalaureate (Appendix C) or undecided/undeclared (Appendix D) program levels.
