

De Anza College: Academic Program Awards and Related Student Headcount, 2013-14 to 2015-16

Introduction

The following document summarizes data in the 2015-16 MIS SP report¹ for De Anza College, which was submitted to the California Community College Chancellor's Office (CCCCO) on September of 2016. The MIS SP report allows analysts to identify students who were awarded any degree or certificate at a community college during a specific academic year, the area of studies for the award, and the title for the award (only those approved by CCCCO). This document also includes related statistics for the two prior academic years to help readers construct a frame of reference to help identify (1) data issues in the report; (2) trends for the last three academic years regarding significant increases or declines in the number of awards and student headcounts for degrees, certificates, or specific programs at the College; and (3) preliminary figures to help validate data for related reports (e.g., IPEDS², Gainful Employment³).

Procedures

For degrees, award and student headcount figures were calculated at three levels: degree type (i.e., associate in arts, associate in arts for transfer, associate in science, and associate in science for transfer), program area (as identified by the first four characters od TOP⁴ code for the program), and program title as stated in the CCCCO curriculum inventory. For certificates not approved (not available in the

¹ For more information, visit:

 $http://extranet.cccco.edu/Divisions/TechResearchInfoSys/MIS/DED/StudentProgramAward.as\ px$

Information about IPEDS can be found at: http://nces.ed.gov/ipeds/.

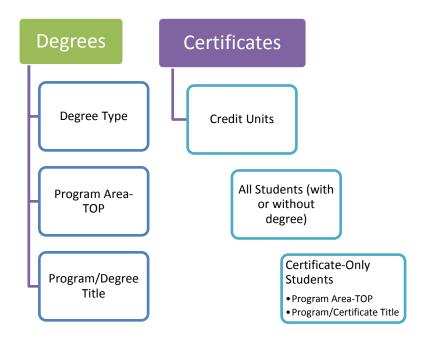

³ Information about Gainful Employment can be found at: https://ifap.ed.gov/GainfulEmploymentInfo/indexV2.html.

⁴ TOP (Taxonomy of Program) code allows analysts to identify the discipline or area of studies (major) for the program (certificate or award). More information available at: http://extranet.cccco.edu/Portals/1/AA/Credit/2013Files/TOPmanual6_2009_09corrected_12. 5.13.pdf.

inventory), the title provided by in the information system (i.e., Banner, SMRPRLE screen) was used instead.

Specific to certificates, figures are provided by certificate type, based on the number of units, for two groups: (1) all students who were awarded a certificate, independently of being also awarded a degree during the same year, and (2) for certificate-only students, which excludes students who earned a degree during the same year at the college. For the certificate-only students (i.e., applicable for Gainful Employment reports), data is also provided at the program area and certificate title levels. See Figure 1 for an illustration of how the data was segregated for the analyses.

Figure 1. Data Segregation for Calculating Awards and Student Headcount Statistics for Degree and Certificates

Findings

 Data on Table D1 shows a 15% increase (1,314 to 1,507) in the number of students who were awarded a degree at De Anza College in the academic year of 2015-16, compared to the number for 2013-14. Headcount increases were reported for the associate degrees for transfer: associate in artstransfer, 193% (43 to 126) and associate in science-transfer, 208% (92 to

- 283). However, associate degrees in arts accounted for about 70% of all degrees awarded in 2015-16.
- There is no evidence that the significant increase in student headcount shown in Table D1 is mainly due to the processing of a backlog of degree applications. Data in Table D2 show that in 2015-16 there were only ten more students (174 to 184) who did not attend the College during the academic year for which the degree was awarded (i.e., last term attended was for a prior academic year), when compared to the number for 2013-14.
- Data in Table D3 show student headcount by academic year and area of studies, as indicated by the first four digits of the degree or program TOP code. The data in this table, which is sorted in descending order of total headcount, shows that *Social Sciences* is the area of studies with the most degrees reported. This area showed only a slight increase in student headcount in the last three years (1%, 335 to 340). After taking into account total headcount and percent change, the programs areas that showed a significant increase in the number of students who earned a degree at De Anza College between 2013-14 and 2015-16 include: *Business Administration* (127%, 114 to 259), *Biological and Physical Sciences and Mathematics* (20%, 207 to 248), and *Speech Communication* (56%, 32 to 50). By contrast, a significant decline in student headcount for degrees during the last three academic years was reported for the areas of *Humanities* (-18%, 134 to 110) and *Paralegal* (-27%, 50 to 40).
- Data in Table D4 identifies the areas in which some students were awarded more than one degree within the same program area during the last three academic years. At De Anza College, the top three areas with students awarded more than one degree include: Automotive Technology (53), Business Administration (24), and Speech Communication (13). Data in Table D5 suggest that for certain areas, such as Business Administration, the coursework for some students might have been applicable to different type of degrees offered within the same area (e.g., the associate degree and the degree for transfer).

- In Table D5, student headcounts are provided by program title, as shown in the CCCCO curriculum inventory.⁵ Because the data refers to specific programs or degrees, including the degree type, these figures provide a more nuance picture of the programs, including how degrees within the same area, or similar areas, may be competing with each other or coalescing. Based on total student headcount for the last three academic years, data in Table D5 shows that the liberal arts degrees are the top degree programs at De Anza, which include: Social & Behavioral Sciences (1,020), Business & Computer Information Systems (783), and Science, Math & Engineering (730). On the other hand, degree programs with the largest growth or percentage change during the last three years were the associate degrees for transfer, which include: Business Administration (172%, 83 to 226) and Communication Studies (88%, 45 from 24). The most significant declines in student headcount were for the degrees in Paralegal Studies (-27%, 55 to 40) and Liberal Arts: Arts and Letters (-18%, 134 to 110).
- Figures for non-degree programs or certificates are provided in Table C1 and C2. Table C1 shows data for all students, independently of whether they also earned a degree during the same academic year. Table C2 only includes data for certificate-only students (i.e., students who received a degree were excluded from this group). Certificate-only students are the ones selected for the *Gainful Employment* reports for only these are representative of the student population that for some reason (e.g., financial or career interest) chose a non-degree program as their education goal.
- Data in Table C1 shows a decline of 3% (450 to 435) for the number of students who were awarded at least one certificate in 2015-16, when compared to the number for 2013-14. For certificate-only students, headcount figures in Table C2 showed an increase of 8% (303 to 327).
- Data in Table C3 show headcount figures for certificate-only students by program area (i.e., first four digits of TOP code). In this table, the data show that the top areas for certificates at De Anza College during the last three academic years based on total headcount are: Automotive Technology (127),

_

⁵ Titles in the CCCO Curriculum Inventory were used to encourage users to become familiar with on this system. More information available at: http://curriculum.ccco.edu/. Also, using formal titles avoids creating duplicated records for what is essentially the same program.

Medical Laboratory Technology (106), Child Development/Early Care and Education (100), and Medical Assisting (98). In Table C4, headcounts are disaggregated by certificate title in the CCC Curriculum Inventory, or the local name if not approved. Data in Table C4 shows that for certificate—only students, the top certificates based on total headcount are: Medical Assisting: Phlebotomy Technician I (100), Accounting (54), CNC Machinist (49), Paralegal Studies (49), and Child Development (49).

 Data in Table C4 show that only 11 of the 92 certificates had a student headcount at least 10 in 2015-16. Related to Gainful Employment disclosures, these certificates are they only ones with a sample size large enough for computing statistics for on-time completion rate and debt.

Table D1. De Anza College: Award Count and Headcount by Degree Type and Academic Year, 2013-14 to 2015-16

| | Academic Period Three | | | | | | Three-Yea | Year Statistics | | |
|--------------------------------|-----------------------|----------|---------|----------|---------|----------|--------------|-----------------|----------------|----------|
| | 2013-14 | | 2014-15 | | 2015-16 | | Count Change | | Percent Change | |
| Degree Type | Awards | Students | Awards | Students | Awards | Students | Awards | Students | Awards | Students |
| Associate in Arts | 1,238 | 1,136 | 1,352 | 1,225 | 1,249 | 1,130 | 11 | -6 | 1% | -1% |
| Associate in Arts- Transfer | 43 | 43 | 70 | 70 | 127 | 126 | 84 | 83 | 195% | 193% |
| Associate in Science | 165 | 134 | 149 | 126 | 150 | 127 | -15 | -7 | -9% | -5% |
| Associate in Science-Transfer | 92 | 92 | 186 | 186 | 284 | 283 | 192 | 191 | 209% | 208% |
| Total | 1,538 | 1,314 | 1,757 | 1,448 | 1,810 | 1,507 | 272 | 193 | 18% | 15% |

Three-Year Statistics: Count Change and Percent Change relate to figures for 2013-14 and 2015-16.

The data showed an increase of 15% for the number of students who earned a degree in 2015-16 at De Anza College, compared to the number for 2013-14. Although increases were shown in the associate degrees for transfer only, the regular associate degree in arts accounted for 70% of all degrees awarded in 2015-16.

Table D2. De Anza College: Headcount for Students who earned at least one Degree by Academic Year and Last Year of Attendance at the College

| | | Aca | ademic Ye | ar for Degi | ree | | | | |
|--|-------|----------------|-----------|-------------|-------|---------|-----------------------|-------------------|--|
| | 201 | 013-14 2014-15 | | 4-15 | 201 | 5-16 | Three-Year Statistics | | |
| Last Year for College Attendance | Count | Percent | Count | Percent | Count | Percent | Count Change | Percent Change | |
| Prior Academic Year | 174 | 13% | 200 | 14% | 184 | 12% | 10 | 6% | |
| Current Academic Year | 1,140 | 87% | 1,248 | 86% | 1,323 | 88% | 183 | 16% | |
| Total | 1,314 | 100% | 1,448 | 100% | 1,507 | 100% | 193 | 15% | |

Prior Academic Year: Students who were awarded at least one degree during the academic year, but the last term they attended the college was during a prior academic year.

Current Academic Year: Students who attended the college during the academic year they were awarded the degree. They may have continued attending the college after the degree was awarded.

Three-Year Statistics: Count Change and Percent Change relate to figures for 2013-14 and 2015-16.
